

Greetings!

Happy holidays and happy life, I pray for you all!.

Thank you for the support for us and may God lend you more years of supporting children especially those who were studying and those who ought to reach their dreams. Thank you all for the hope that you keep on sharing to us, we'll use these hope to finally help ourselves, through studying hard and do our obligations and duties as students.

We may have hardships financially, but we have our dreams and we thank you for helping us reach it and through you we know God we'll let us succeed and maintain our well-being.

Thank you for your financial support and we ask you to never stop helping us and may God let us be worthy for your help.

Again, thank you for your support and Happy Holidays! May you find happiness and joy in what you do!

Truly yours,

Alexandra
